Accounting Student | Data Analyst

Turning Numbers into Actionable Insights

Cairo, Egypt

Made with GAMMA

About Me

Hi! I'm Ahmed Fathy, an Accounting student at Cairo University (GPA 3.89/4.00 - Excellent), passionate about combining financial knowledge with data analytics to create real impact. I enjoy translating complex financial and operational data into clear insights and dashboards that help businesses make informed decisions.

Increased Revenue

Increased revenue by 29% at Select through strategic market work.

Auditing Compliance

Maintained 100% auditing compliance at Talabat.

Freelance Projects

Completed 3+ freelance analytics projects generating \$300.

I'm always learning new tools and improving my data and financial analysis skills to stay ahead in this dynamic field.

Core Competencies

Financial Knowledge

- Financial Reporting & IFRS
- Financial Statement Analysis
- Cash Flow Management
- Break-even & Budget Analysis
- Audit & Compliance Concepts

Data & BI Expertise

- Advanced Excel
- SQL / SQL BI
- Power BI
- Tableau
- Data Cleaning & KPI Modeling
- Data Warehousing Basics

Professional Experience: Talabat

Auditor & Reviewer – Talabat (June 2025 – Present)

- Audit 10 - 15 operational orders daily, ensuring accuracy and adherence to company policies.
- Manage approvals & rejections, streamlining internal processes for efficiency.
- Ensure 100% quality compliance, upholding high standards in all audit activities.
- Identify reporting gaps and propose solutions for enhanced data integrity.
- Strengthen internal workflow control, contributing to a more robust operational framework.

Professional Experience: Diverse Roles

01

Data Analysis Trainee – DEPI

Built dashboards using Excel, SQL & Power BI, transforming raw data into visual insights. Completed 3+ freelance projects, generating \$300 in revenue. Performed meticulous data cleaning & KPI modeling.

02

Corporate & Import/Export Intern – Banque Misr

Analyzed financial registries & company cash flows, gaining deep insights into corporate finance. Verified cheques & assessed credit risk, contributing to sound financial decisions. Studied loan issuance & trade finance documentation, broadening understanding of banking operations.

03

Sales & Marketing Representative – Select

Delivered 29% revenue growth through targeted sales strategies. Expanded digital customer base by 5%, leveraging digital marketing channels. Conducted comprehensive market gap analysis, identifying new opportunities for growth.

Featured Project 1: Hospital Performance Analysis

ITI Final Project

Objective: Analyze the financial & operational performance of a hospital to identify areas for improvement.

- **Execution:** Comprehensive data collection & cleaning (Excel), KPI identification & structuring, operational & cost performance evaluation, and dashboard visualization.
- **Tools:** Excel | SQL | Power BI

Impact:

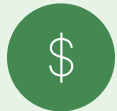

- Identified cost inefficiencies, leading to potential savings.
- Highlighted underperforming departments, enabling targeted interventions.
- Improved visibility of operational KPIs, enhancing real-time decision-making.
- Delivered structured decision-support reporting for strategic planning.

Featured Project 2: Business Intelligence Dashboards

Freelance & BI Projects

Scope: Develop custom business intelligence dashboards for small businesses and freelance clients.

- **Execution:** Thorough data cleaning & preparation, precise KPI definition & SQL querying, and intuitive dashboard design in Power BI.

Results & Impact

Successfully completed 3+ projects, generating \$300 in revenue. Delivered actionable metrics to clients, empowering them with data-driven insights for improved business performance.

Academic Status

Bachelor of Commerce – Accounting

Currently pursuing my degree at Cairo University, maintaining an excellent GPA of 3.89/4.00.

Focus Areas

- Financial Reporting: Mastering the principles and standards of financial disclosure.
